

INVINITI

CERTIFIED SUSTAINABLE

A wine that looks good, tastes good and does good.

It's good to know when you purchase something, it has come from a good place. A place that honours the land and takes care of it for future generations. A place full of people who care about the resources they use and who work hard to replenish every single element.

We think carefully about our packaging choices too. Our lightweight bottles are made in New Zealand with a minimum 70% recycled content. The paper for our wine labels comes from certified, sustainably managed forests and the cartons are made from 100% recycled fibre.

The infinity symbol represents our continuous respect and care for the environment and our nonstop commitment to bring you a range of authentic, expressive Marlborough wines you can be proud to share with friends and family. Made by our small, hands-on team in our own winery, with grapes from our own vineyards, this wine is independently certified 100% sustainable.

VINEYARDS AND WINEMAKING

The grapes for this wine are from our Wairau Valley vineyards. The 2020 vintage was truly outstanding, and this wine echoes the ripe, juicy flavours that we tasted in the vineyard. After gently pressing, the juice was fermented in stainless-steel at cool temperatures to retain the fresh aromatics and stone-fruit flavours.

Alc 13%, TA 5.9, pH 3.46, RS 3.8g/l

TASTING NOTE

Fragrant pear, red apple and stone-fruit aromas lead to a predominantly dry yet weighty palate with fresh, bright fruit characters and a gentle balance of acidity.
100% certified sustainable.

PERFECT FOR...

Lovers of the classic Pinot Gris style! Pairs well with spicy foods, salmon, pâté, creamy pasta, roast pork or ideal just as a glass of wine on its own.
